Forecast for Monday 05 Dec 2022

Weather: Mainly dry with occasional brighter spells developing, especially in the south. The few showers that do appear expected from Ben Wyvis northwards, with snow level 500-600m.

Chance of cloud-free hill tops above 800m: 80-90%

Low cloud and visibility: Good becoming moderate or poor in rain showers, very poor in snow showers and within cloud with bases infrequently lowering to 600m

Met Office Aberdeen Meteorologist's View
Cold at height with a significant chill effect.

Forecast for Tuesday 06 Dec 2022
Weather: Rather cloudy across the north with occasional showers, best of brighter spells towards the southern end of the Great Glen where showers will be quite isolated. Snow level 400-500m descending to lower levels from late afternoon.

Maximum wind: North to northeast mean around 15mph

Chance of cloud-free hill tops above 800m: for any given instance 60% in north and 95% in south, but given the showery nature of the flow limited chance of extended clear periods.

Low cloud and visibility: Good becoming moderate or poor in rain showers, very poor in snow showers and within cloud with bases lowering to 400m as showers push through.

Temperature: **Glens:** Minus 3 Celsius increasing 6 Celsius for the afternoon
At 800m: Minus 3 Celsius lowering Minus 5 Celsius later
Freezing level: 600m lowering 200m later
